15 mins - Urodynamics – Get clarity on basics

5 mins – Q & A

15 mins – Setting up equipment & running the study

5 mins – Q & A

30 mins – Interpretation of traces

5 mins – Q & A

15 mins – Dealing with artefacts

5 mins – Q & A

10 mins – Utility of video urodynamic

5 mins – Q & A

10 mins – Reporting of UDM study

5 mins – Q & A

10 mins – Limitations of invasive UDM

5 mins Q & A

40 mins – Grand Rounds

Lower tract Endourology – 3 ½ hrs

Session I – 60 mins State of the art lectures & debates

Lectures – Each lecture – 7 mins & 3 mins discussion.

Visual internal urethrotomy – where are we today NZ

Do we need to some more research on medical management of BPH?- SZ

Withdrawal of Alpha blockers for BPH-LUTS – what is the reality. – Amrendra Pathak

BPH treatment in pts with anticoagulant- SZ

50 W laser for prostate treatment – reality or gimmick WZ

What is on horizon for BPH treatment. – WZ

Session II - Debates – 7 mins each 2 mins rebuttal

Is enucleation new gold standard for BPH treatment Yes Vs No. Anshuman Kapoor , Subodh Shivde or Jaydeep Date

Laser enucleation is best Vs bipolar enucleation is the way to go.

Session III - Point of technique video- 5 mins each & 3 mins discussion 40 mins

TURP – large median lobe

TURP – large prostate > 100 gms – How to do speedy resection. –

Resection of prostate lobes extending beyond veru. What precautions. -

TUIP/BNI

Session IV - How to come out of problems - video –

Missing of planes & capsular perforation in HOLEP

Undermining of bladder neck during laser prostatectomy.

Not getting bladder neck in bipolar enucleation.

Bleeding starts in HOLEP

Morcellator injury to bladder –

Reconstructive Surgery

Session I – Urethral reconstruction – Convener – Dr. Pankaj Joshi

Session II – Non urethral reconstruction – Dr. Arbind Panda.

Female Urology –

Convener – Dr. Ajit Vaze
